

## SHE CLINGS TO LIFE

Mrs. Olin Castle of El Dorado Was Alive Last Night.

## CANNOT SURVIVE THE DAY

Wichita Physicians Give Testimony on Similar Cases.

The latest advice from El Dorado last night was to the effect that Mrs. Olin Castle was still alive, with but very little hope of surviving the night. The telegram to the Eagle office at 3 o'clock read: "Mrs. Castle still alive. Somewhat better this evening, but not expected to survive but a short time."

Yesterday she passed a restless day, but towards evening there were signs of improvement in her condition. The physicians are constantly at her bedside and will remain until the end comes.

It has now been two weeks since the terrible tragedy took place, and it appears almost impossible that life has lasted so long. It will be remembered that Mrs. Castle's head was almost severed, completely severing the windpipe and esophagus.

The outcome of this case, which is undoubtedly the most remarkable in this part of the country, is being watched with considerable interest. Not only are the people of El Dorado interested, but the residents here are also concerned.

Mrs. Castle's case is not only peculiar to the common masses, but the physicians are somewhat baffled at the wonderful tenacity displayed by the woman. With the view of ascertaining whether or not it was possible for a person to recover with both the windpipe and esophagus severed, a reporter for the Eagle yesterday took occasion to call upon a physician here.

Dr. A. H. Fabrigar says that the cutting of the windpipe will not necessarily produce death if the case is properly treated. Many people have been known to recover from a wound of this kind. It would be very hard for a person to entirely recover when both the windpipe and esophagus are completely severed. Some physicians can be taken, but the patient will probably starve to death. However, some cases have been known in which the patients entirely recovered.

Dr. Jordan, the city physician, says that the patient would hardly live for any great length of time if the patient had both the esophagus and windpipe severed. Arrangements would necessarily be made for the person to breathe through a tube, and only a small amount of food could be given. It would be very doubtful if the patient could live a month in such condition. If the wound was done in the neck, the patient would be able to eat and drink, but the system would be weaker and more food would be required. Also if the wound was in the neck, more food would be required, and it is hardly possible that enough could be administered to supply the demand and the person would eventually starve to death. In some instances, such cases have resulted in the patient recovering, but they were, however, very rare.

## TOO MUCH FOR KISMET

St. Louis Frisco Boys Won Yesterday's Contest by Score of 30 to 7.

The baseball game yesterday afternoon at the fair grounds between the Kismet club of the city and the St. Louis Frisco team resulted in the lopsided defeat of the home team by the uneven score of 30 to 7. This, however, was predicted by many before the game, as the foreign team had had a wonderful amount of practice and is traveling west for the summer for two weeks doing nothing but playing ball, consequently they were in excellent trim.

The attendance was not very large, but today's game, when the Frisco club will contest with the Chillicothe Indian nine, no doubt a large crowd will attend. They are expected to play at night and are stopping at the Baltimore hotel.

The only feature of the game yesterday was Winters' home run in the third with two men on bases. Golegan, the third baseman for St. Louis, was hit in the first inning and recovered and finished the game. The boys seemed to think they didn't have to play ball and as a result errors were in abundance. Henzler, catcher for the Kismet, was the only one who made two runs for the Kismet.

Muff of the home team re-established his reputation as a hard hitter and a fine fielder.

The following is the summary of the game:

## OPEN RECRUITING STATION

Sergeant Belz Desires to Secure Men for Philippine Service.

Sergeant W. P. Belz arrived in the city yesterday and will open a recruiting station here today. The station will be located at the office of Dr. Fordyce on North Main street and will probably be open for several weeks here for the service in the Philippines. The men after being recruited will be sent to California, where they will be drilled from six to eight weeks, after which time they will be allowed to choose the service they desire to enter. Should they not desire, they may enter either the cavalry, artillery or infantry. The men recruited here will not be for any special regiment in the Philippines but will be assigned to various regiments after having received in-

Happy is the person thoroughly prepared, by perfect good health, to win life's battle. This condition comes only with absolutely pure blood. Over 90 per cent. of humanity are troubled with a taint, impurity or humor of some kind in the blood, which should be removed by Hood's Sarsaparilla, the best specific for both sexes and all ages.

struction on the coast. Recruiting will also be done for the Siege Battery O of the Seventh artillery at Fort Riley. This battery will probably be stationed at Fort Riley for some time.

Sergeant Belz is quite anxious to secure a number of good men for the service from Wichita. He has been in Oklahoma, where he had charge of the recruiting station there. A number of the Oklahoma young men were enlisted and will go to the Philippines for service. This service in the Philippines is for the standing army and not for active service unless it becomes necessary.

Captain Ulline of Kansas City will be in the city every week to swear in the recruits, and after being sworn in the service they will immediately be sent to the coast.

Sergeant Belz has been in the service for fourteen years and served in the regular army through the Spanish-American war. He was quite seriously wounded in Cuba and was out of the service for some time. He has been in Kansas City for some time prior to his work in Oklahoma, and during a period of two years that the station has been open in Kansas City over 2,000 men have been recruited.

## THEY WANT ROOSEVELT

Hutchinson Arranging for the Hero of San Juan in September.

Hutchinson wants to get Governor Roosevelt for a date in September during the Old Soldiers' reunion, and the people up there believe that they will land him. He has been asked to come and has half-way promised. In answer to one of the first questions asked him upon his arrival in Kansas, which was, "Can you be present at the soldiers' reunion in Hutchinson the last week in September?" he said: "I'll be there if the national committee don't prevent it. Nothing would please me more."

Kansas is coming up right this year, and it is not likely that the national committee will place anything in the way of Roosevelt attending the big double reunion. The Twentieth Kansas boys will hold their reunion alongside of the old veterans, and it will be one of the greatest reunions ever held in the state. When asked what Mr. Duval and his wigwag would think of his mapping out such an early campaign Mr. Campbell openly declared that he did not know and furthermore Mr. Campbell's withdrawal, neither Chairman Ayres of the Populist committee or Mr. Campbell will say, further than to denounce it as being untrue. Both contend that there is plenty of time to refute Mr. Pitts' letter before the campaign closes. The Populist committee will hold a meeting in about two weeks, when they will probably issue a statement, as did the Democratic committee.

## FAKE ADVERTISING SCHEME

Merchants Being Solicited by Fellows who Give Something for Nothing.

The merchants of the city are being solicited for a fake advertising scheme. A merchant's sign will look well painted on a wire fence along the country road, as there are no other kind of fences in this country, and when it comes to bridges what few there are, this device is plastered all over with signs of a firm since retired for lack of trade, a firm who occupied the best location in the city, had the credit and the goods, but did not believe in newspaper advertising and did not like it. While today another firm occupies the building, which does nothing but inefficient advertising, using but one daily in the city and are doing an immense business. The Eagle can name a merchant in this city who eighteen months since was hardly known to be in business, and today, wherever the Eagle goes in this southwestern country he is the only man known in that business, practically. The firm has had an advertisement in almost every issue of the Eagle for a year and a half and his business has increased 90 per cent in that time.

## INTERESTED LADIES

Working in a Good Cause.

"In the institution where I am employed as nurse (The Home for Aged Women) we have ladies suffering from gastric trouble caused by coffee. My own personal experience is that unless a child I have been a moderate drinker of coffee, but most of the latter years have suffered from acidity of the stomach, sluggish liver and nervousness. I finally gave up coffee entirely, about three years ago, using hot water in its place. Of course, after removing the cause, the symptoms disappeared, but I assumed to need a beverage more strengthening than hot water, as my occupation of nurse required considerable exertion. I began to look about for a suitable breakfast beverage and under the preparation of one by 'Spreading' some wheat berries and using that as coffee, but the result was far from satisfactory. Finally I came across Postum Food Coffee, on a visit at my home in Boston, N. J., and found it exactly fitted the case."

"I have been using it regularly and introduced it to our institution. When it was first served, it was not satisfactory, but I looked into the matter and insisted upon having it boiled fully fifteen minutes after the actual boiling had started, not counting the time that it was on the stove before boiling began. The next time it appeared you would not think it was the same article, it was so much improved. Several of the patients decided to use it to the exclusion of coffee and I found that it has reduced the number of cases of indigestion. The result has been very gratifying, and for two years now Postum Food Coffee has been in daily use at the home."

"Mrs. Matilda Sawyer and Miss Anna Merrill are desirous that their names be added to help forward the good cause. My mother has been greatly helped by the discontinuance of coffee. She was formerly subject to cramps but they have entirely disappeared since she has abandoned coffee and taken up Postum Food Coffee. Respectfully, Mrs. E. Stryker, Elizabeth, N. J."

Writing Expressions of Kansas City Convention for New York Paper.

Mrs. Mary Elizabeth Lease secured a seat on the press platform during the Kansas City convention. She is writing her impressions of the convention for a New York paper. Mrs. Lease spends most of her time in New York. She writes a great deal and lectures a little. She is making "good" money, and is getting out of the reform house. Before returning to New York Mrs. Lease will visit a few days with her husband at Wichita.

## MAPS OUT CAMPAIGN

I. P. Campbell Will Begin Active Work August 1.

## CARES NAUGHT FOR DUVAL

First Guns to be Fired at Scott City and Leoti.

I. P. Campbell, Duval's side partner in the short grass congressional race, is as determined as ever that there shall be no more overtures for a settlement of the fusion dispute from his side of the house and is now making arrangements to stump the district in the interests of his candidacy for the place which he is seeking. Mr. Campbell will fire the first gun at Scott City on August 10, to be followed a night later with a speech at Leoti, in Wichita county. While these will be the candidate's first speeches his campaign will open August 1 and he says it will be actively and vigorously pushed until the last minute during the campaign.

It is Mr. Campbell's intention to commence work in the northwestern corner of the district and work this way, and closing in Wichita on the night before election. He expects to make about 100 speeches in the interest of himself and the Populist party during the campaign.

The candidate remains firm in his previous statement that he would make the canvass at any risk and does not now care what offers for peace Mr. Duval, the Democratic congressional committee or his friends might make. His energies being exhausted in previous attempts to effect an amicable settlement of the differences between himself and his Democratic opponent, Mr. Campbell maintains that he will ignore all flags of truce that might be set so the Kansas zephyrs by the Democrats unless they see fit to center on him. With the stiff-necked course that is now apparent in the Democratic camp there seems to be no show for a conclusion of this kind and about all that can now be done, so Mr. Campbell believes, is to start in on an active campaign and prove to the fusion leaders that the short grass district is stronger Populist tenfold than Democratic.

When asked what Mr. Duval and his wigwag would think of his mapping out such an early campaign Mr. Campbell openly declared that he did not know and furthermore Mr. Campbell's withdrawal, neither Chairman Ayres of the Populist committee or Mr. Campbell will say, further than to denounce it as being untrue. Both contend that there is plenty of time to refute Mr. Pitts' letter before the campaign closes. The Populist committee will hold a meeting in about two weeks, when they will probably issue a statement, as did the Democratic committee.
